

Home-based learning activities

1. Log on and practise your weekly spellings on Spelling shed. The 100 Year 5 and 6 words are also there for you to practise.
2. Practise times tables either on paper, verbally or on online games such as Times tables rockstars, hit the button, table mountain etc.
3. Logon to Purple mash where there are a huge amount of Literacy, Numeracy and topic activities to access and also learning games to play. A letter has been sent home to remind you of how to logon and some activity ideas.
4. Read every day! This could be a story, non-fiction text, magazine, newspaper or anything you like. When you have finished your book, try and complete some of the reading activities in the front of your reading diary.
5. Work your way through the Year 5 maths revision booklet. We have started these in school.
6. Present a poster/PPT/fact-file about all the things you have learnt in our 'Ancient Greek' topic.

Stay safe and healthy and we look forward to seeing you in school, ready to learn, as soon as possible.
