

cloud Viewer

1. Print the cloud viewer, remove the white rectangle then stick it to a piece of card to reinforce it.
2. Add a lolly stick to hold (optional)
3. Hold it up to the sky and see which clouds you can spot!

WARNING – never look directly at the sun

High altitude clouds:

Cirrus
Cirrocumulus
Cirrostratus

Low altitude clouds:

Cumulonimbus
Cumulus
Stratus
Stratocumulus

Middle altitude clouds:

Cumulus congestus
Altostratus
Nimbostratus

You will need:

- Cloud viewer
- Card
- Lolly stick
