

CHOOSE YOUR DESTINATION

YORK

York is a place of contrasts, a medieval walled city with the ancient shops of the 'Shambles', the magnificent Minster, historic churches, intriguing museums and offering the best of modern shopping. In fact something for everyone!

If York is the northern heritage capital of England, Scarborough surely offers the best in British seaside entertainment.

SCARBOROUGH

Wide sandy beaches, popular attractions, a ruined castle, a miniature railway and some fine seafront walks offer a great day out for every member of the family.

Whichever destination you choose, once you have alighted from the 'Scarborough Spa Express' at either York or Scarborough you can be assured of some of Britain's finest holiday attractions and entertainment. You will have also enjoyed a thrilling means of transport that's a great experience for both young and old - and don't forget to say "Hello!" to the driver!

Through the large picture window of the vintage carriages you can enjoy the beautiful views of the Yorkshire countryside.

There is a buffet on every train offering hot and cold drinks, sandwiches and snacks.

"If a line were to be built it would have to be by spanning the valleys with stupendous viaducts and piercing mountain heights with enormous tunnels; deep cuttings would have to be blasted through the rock; and mile after mile of high embankments would somehow have to be piled on soft peaty moors.

However, great the obstacle, they had simply one of four courses to take - to go over it, or to go under it, or to go round it, or to go through it; but go they must."

THE HISTORY

In July 1927 the London North Eastern Railway Company inaugurated the 'Scarborough Flier'. This titled train ran from London King Cross to Scarborough Central and Whitby Town. It consisted of an express service from London to York, at which point the locomotive would be changed, before the train ran on to the coastal towns of Scarborough and Whitby. The service continued until September 1939 when, like many services, it was cancelled for the duration of the war. It wasn't until June 1950 that the service was re-introduced as a 'Summer Only' express and it quickly became 'The Scarborough Flyer' with the very characteristic sunburst design on the headboard. The train ran for 13 years until it finally ended in September 1963, by which time these special named expresses were becoming unfashionable. However, in 1981 the first 'Scarborough Spa Express' ran to celebrate the re-opening of the towns famous Spa building.

Now, in 2013, West Coast Railways would like to welcome you aboard a special steam train once again and let you re-live a little bit of history whilst experiencing a thoroughly enjoyable day out.
