

# Gooney Gelatine Snot Slime

## You will need:

3 sachets of unflavoured gelatine

120ml glucose (corn) syrup

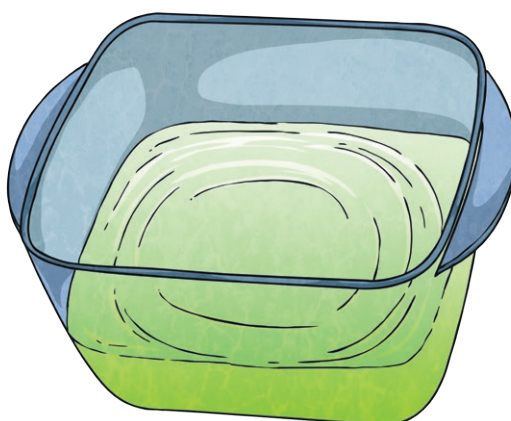

120ml water

food colouring (optional)

## Instructions:

1. Pour 120ml boiling water into a bowl. Tip: this part will have to be done by an adult for safety.
2. Slowly, add the gelatine to the bowl and mix with a fork. Leave to stand for five minutes.
3. In another bowl, measure out 120ml of the glucose syrup. Mix in a few drops of food colouring here if desired – green works especially well if you want an ogre's snot-coloured slime!
4. Slowly, add the gelatine mixture to the glucose syrup and stir until it reaches the consistency of snot.
5. Now have fun with this snotty, runny, gooney, gloopy, sensory slime!
