

The Magic Escalator

Amazing Fact

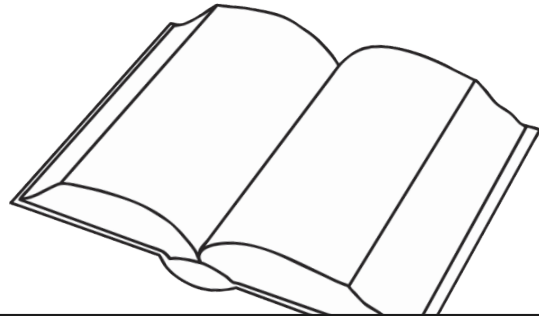

On 4th October 1911, Britain's first ever escalator went in to service at Earl's Court in London, which makes the escalator over a hundred years old!

Challenge

Imagine you and a friend step onto a magic escalator. Write the story of your adventure.

Questions to think about:

- Where do you get on the escalator?
- Where will it take you?
- What time will it take you to?
- What adventure do you have there?
- How do you get back home?

You could also try to find out:

- which came first – the fridge, the escalator or the TV;
- which country has the most escalators;
- whether escalator use is on the decrease.
